

Notice

This Report to Congress has been subjected to the U.S. Environmental Protection Agency's (EPA's) review process and approved for publication as an EPA document. For further information about this Report, contact the Office of Program Management, Office of Emergency and Remedial Response at (703) 603-8710. Individual copies of the Report can be obtained from the U.S. Department of Commerce, National Technical Information Service (NTIS) by writing to NTIS, 5285 Port Royal Road, Springfield, VA 22161, or calling (703) 487-4650.

Foreword

The Environmental Protection Agency (EPA) continued its progress in protecting public health, welfare, and the environment through the Superfund program in fiscal year 1994 (FY94). As the Superfund program completed its fourteenth year, the Agency had begun work at 94 percent of the 1,355 sites on the National Priorities List (NPL), and completed construction on 278 of them. EPA is pleased to submit this Report documenting the fiscal year's achievements.

Through administrative improvements implemented during the year, the Agency accelerated the pace of cleanup, enhanced the fairness of the Superfund program, reduced transaction costs, and expanded public involvement. The Agency also focused on these aspects of the program as it drafted legislative amendments introduced as the Superfund Report Act of 1994.

Section 301(h) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA, or Superfund), as amended by the Superfund Amendments and Reauthorization Act of 1986, requires the Agency to report annually on response activities and accomplishments and to compare remedial and enforcement activities with those undertaken in previous fiscal years. During the fiscal year, the Agency or potentially responsible parties (PRPs) started approximately 70 remedial investigation/feasibility studies, 110 remedial designs (RDs), and 120 remedial actions (RAs). PRPs began 75 percent of these RDs and RAs. Continuing its successful efforts to compel PRPs to undertake cleanup, EPA entered into 230 enforcement agreements worth more than \$1.4 billion in response work. The Agency and PRPs have also now undertaken more than 3,660 removal actions, including approximately 310 during FY94. Federal facility accomplishments have shown dramatic increases; 129 of the 150 federal facility sites listed as final on the NPL are now covered by interagency agreements for clean-up activities. EPA also continued to encourage public involvement in the Superfund process, to enhance partnerships with states and Indian tribes, and to encourage the use and development of treatment technologies. These three aspects of the program were highlighted in the Agency's administrative improvement initiative.

In addition to providing an overall perspective on progress in the past fiscal year, this Report contains the information Congress specifically requested in Section 301(h) of CERCLA, including a report on the status of remedial actions and enforcement activity in progress at the end of the fiscal year and an evaluation of newly developed feasible and achievable treatment technologies. The Report also includes a description of current minority firm participation in Superfund contracts and EPA's efforts to encourage increased participation, as required by Section 105(f). The Report fulfills the requirement of Section 301(h)(1)(E) by providing an update on progress being made at sites subject to review under Section 121(c). Appendix D consists of a matrix that charts the progress of EPA and other government organizations in meeting Superfund-related statutory requirements. This Report also satisfies certain reporting requirements of CERCLA Section 120(e)(5), the *EPA Annual Report to Congress: Progress Toward Implementing CERCLA at EPA Facilities as Required by CERCLA Section 120(e)(5)*. The EPA Inspector General's report on the reasonableness and accuracy of the information in this Report, as required by CERCLA Section 301(h)(2), is included as Appendix E.

Appendix G is included to give an overall summary of the Superfund Program in fiscal years 1992 through 1994.

Carol M. Browner
Administrator

Timothy Fields, Jr.
Acting Assistant Administrator for
Solid Waste and Emergency Response

Acknowledgements

The Environmental Protection Agency appreciates the contributions made by staff members throughout the Agency's management and program offices, as well as other federal agencies and departments. Within the Office of Solid Waste and Emergency Response, which manages the Superfund program, contributors included: Lynn Beasley (project manager), Erin Conley, Gayle Dye, Joanna Gibson, Rafael Gonzalez, Walter Johnson, Justin Karp, Trudy Link, Robin Richardson, Tom Sheckells, Suzanne Wells, and Ed Ziomkoski from the Office of Program Management; Bruce Gruenewald, from the Office of the Assistant Administrator; Esther Coleman, Lucy McCrillis, and Jim Woolford, from the Federal Facilities Restoration and Reuse Office; Deb Duffy, Terry Keidan, Jim Konz, and Robert Myers, from the Hazardous Site Evaluation Division; George Alderson, Diana Hammer, Marlene Berg, Hugo Fleischman, Andrea McLaughlin, Carolyn Offutt, Peter Redmond, and Alan Youkeles, from the Hazardous Site Control Division; Mark Mjones and Ed Thrasher, from the Emergency Response Division; Katie Daly and Cheryl Hawkins, from the Office of Emergency and Remedial Response's Outreach and Special Projects staff; and Tim Fontaine, from the Acquisition Staff (OSWER).

Additional key contributions from other Environmental Protection Agency offices were provided by: Mike Boyd and Mike Eagle, from the Office of Air and Radiation; Sally Dalzell from the Office of Enforcement and Compliance Assurance's (OECA's) Federal Facilities Enforcement Office; Scott Blair from OECA's Office of Site Remediation William Frietsch, John Martin, and Donald E. Sanning, from the Office of Research and Development's Risk Reduction Engineering Laboratory; Ann Eleanor, from the Technology Innovation Office; and Becky Neer, from the Office of Small and Disadvantaged Business Utilization.

Contributions from other federal agencies and departments were provided by: Mike Greewell, from the Agency for Toxic Substances and Disease Registry; Ann Dablin, from the Department of Defense; and Mary Morton from the Department of Interior.

Executive Summary	xi
Chapter 1: Major Initiatives	21
1.1 Reauthorization Activities	22
1.1.1 National Advisory Council on Environmental Policy and Technology	22
1.1.2 Agency Workgroups	23
1.1.3 Interagency Workgroups	23
1.1.4 Legislative Activities	23
1.2 Administrative Improvements	23
1.3 Improving Clean-up Effectiveness and Consistency	24
1.3.1 Streamlining and Expediting the Clean-up Process	24
1.3.2 Developing Soil Screening Levels	26
1.4 Enhancing Community Involvement	27
1.5 Expanding the Role of States	28
1.6 Increasing Fairness in Enforcement and Reducing Transaction Costs	28
1.6.1 Promoting Greater Use of Allocation Tools	29
1.6.2 Fostering More Settlements with Small-Volume Waste Contributors	29
1.6.3 Increasing Fairness for Owners of Superfund Property	30
1.6.4 Evaluating Mixed-Funding Policy	30
1.7 Ensuring Environmental Justice	31
1.8 Continuing Initiatives	32
1.8.1 Implementing the Superfund Accelerated Clean-up Model	32
1.8.2 Achieving Construction Completions	34
1.8.3 Strengthening Contracts Management	35
1.8.4 Promoting Enforcement First	35
1.8.5 Accelerating Cleanup at Closing Military Bases	36
1.8.6 Promoting the Development and Use of Innovative Technologies	37
1.8.7 Enhancing Compliance Monitoring	38
1.8.8 Improving the Effectiveness of Cost Recovery	38
Chapter 2: Site Evaluation Progress	41

Contents (continued)

2.1	Site Evaluation Process	41
2.2	Fiscal Year 1994 Progress	41
2.2.1	CERCLIS Site Additions: Discoveries and Removals	42
2.2.2	Preliminary Assessments Completed	42
2.2.3	Site Inspections Completed	42
2.2.4	Site Inspection Prioritization	43
2.3	National Priorities List	43
2.3.1	National Priorities List Updates	43
2.3.2	Relationship between CERCLIS and NPL Update	43
2.4	Site Evaluation Support Activities	44
2.4.1	Lead Program Progress	45
2.4.2	Radiation Program Progress	46
2.4.3	Site Evaluation Regulations and Guidance	48
Chapter 3: Removal Progress		49
3.1	Removal Action Process	49
3.2	Fiscal Year 1994 Progress	51
3.2.1	Status Report on Removal Progress	51
3.2.2	Expanding the Use of Removal Authority	51
3.3	Environmental Response Team Activities	53
3.4	Emergency Response Regulations and Guidance	54
3.4.1	Reportable Quantity Regulations	54
3.4.2	Removal Guidance	55
Chapter 4: Remedial Progress		57
4.1	Remedial Process	57
4.2	Fiscal Year 1994 Remedial Progress	58
4.2.1	Construction Completions	58
4.2.2	New Remedial Activities	58
4.2.3	Status of Remedial and Enforcement Activities Progress	59
4.3	Remedial Initiatives	60
4.3.1	Presumptive Remedies	61
4.3.2	Soil Screening Levels	61

Contents (continued)

4.3.3	Addressing Technical Complexities of Ground-Water Cleanup	62
4.4	Remedy Selection	63
4.5	Use and Development of Treatment Technologies	63
4.5.1	Superfund Innovative Technology Evaluation Program Progress	64
4.5.2	Superfund Technical Assistance Programs	73
4.5.3	Technology Transfer and Interagency Sharing	77
4.6	Report on Facilities Subject to Review Under CERCLA Section 121(c)	82
Chapter 5: Enforcement Progress		85
5.1	The Enforcement Process	85
5.2	Fiscal Year 1994 Progress	86
5.2.1	Settlements for Response Activities	86
5.2.2	PRP Participation in Clean-Up Activities	87
5.2.3	Cost Recovery Achievements	87
5.2.4	Success in Reaching and Enforcing Agreements with PRPs	88
5.3	Enforcement Initiatives	88
5.3.1	Greater Use of Allocation Tools	89
5.3.2	Foster More Settlements with Small-Volume Waste Contributors	99
5.3.3	Greater Fairness for Owners at Superfund Sites	99
5.3.4	Evaluate Mixed-Funding Policy	100
5.3.5	Compliance Monitoring	100
5.3.6	Improved Effectiveness of Cost Recovery	100
5.3.7	Superfund Accelerated Clean-up Model	101
Chapter 6: Federal Facility Cleanups		103
6.1	The Federal Facilities Program	103
6.1.1	Federal Facility Responsibilities Under CERCLA	103
6.1.2	EPA's Oversight Role	103
6.1.3	The Roles of States and Indian Tribes	104
6.2	Fiscal Year 1994 Progress	104
6.2.1	Status of Facilities on the Federal Agency Hazardous Waste Compliance Docket	104
6.2.2	Status of Federal Facilities on the NPL	105
6.2.3	Interagency Agreements Under CERCLA Section 120	106
6.3	Federal Facility Initiatives	106
6.3.1	Military Base Closure	106

Contents (continued)

6.3.2	Accelerated Cleanups at Federal Facilities	107
6.3.3	Interagency Forums	107
6.3.4	Innovative Technology Development	108
6.4	CERCLA Implementation at EPA Facilities	109
6.4.1	Requirements of CERCLA Sections 120(e)(5)	109
6.4.2	Progress in Cleaning Up EPA Facilities Subject to Section 120 of CERCLA	110
Chapter 7: Superfund Program Support Activities.....		113
7.1	Community Involvement	113
7.1.1	Fiscal Year 1993 Highlights	114
7.1.2	Technical Assistance Grants Under CERCLA Section 117 (e)	115
7.2	A Coordinated Approach to Public Information	117
7.2.1	The National Technical Information Service	117
7.2.2	The Superfund Docket	117
7.2.3	Other Information Sources	118
7.3	EPA's Partnership with States and Indian Tribes	118
7.3.1	Response Agreements and Core Program Cooperative Agreements	118
7.3.2	Fiscal Year 1994 Highlights	120
7.4	Minority Firm Contracting	121
7.4.1	Minority Firm Contracting During Fiscal Year 1994	121
7.4.2	EPA Efforts to Identify Qualified Minority Firms	122
7.4.3	Efforts to Encourage Other Federal Agencies and Departments to Use Minority Contractors	123
Chapter 8: Resource Estimate for Superfund Implementation.....		125
8.1	Source and Application of Resources	126
8.1.1	Estimating the Scope of Cleanup	127
8.1.2	PRP Contributions to the Clean-Up Effort	127
8.2	Resource Model Assumptions	127
8.2.1	Active NPL Sites	127
8.2.2	Sites Yet to Begin the Remedial Process	128

Contents (continued)

8.2.3	Non-Site Costs	128
8.2.4	Factors Related to Remedial Action Costs	129
8.3	Estimated Resources to Complete Cleanup	129
8.4	Estimated Resources for Other Executive Branch Departments and Agencies	130

Appendices

Appendix A:	Status of Remedial Investigations, Feasibility Studies, and Remedial Actions at Sites on the National Priorities List in Progress on September 30, 1994.....	A-1
Appendix B:	Remedial Designs in Progress on September 30, 1994	B-1
Appendix C:	List of Records of Decision.....	C-1
Appendix D:	Progress Toward Meeting Superfund-Related Statutory Requirements	D-1
Appendix E:	Report of the EPA Inspector General	E-1
Appendix F:	List of Sources	F-1
Appendix G:	Summary of the Superfund Program [1992-1994]	G-1

List of Exhibits

Exhibit ES-1	Summary of Fiscal Year 1994 Superfund Activities	xii
Exhibit ES-2	Summary of Program Activity by Fiscal Year	xiii
Exhibit ES-3	Statutory Requirements for the Report	xix
Exhibit 1.0-1	Progress in Classifying Sites as Construction Completions	22
Exhibit 1.2-1	Superfund Administrative Improvements: Highlights of New and Continuing Initiatives	25
Exhibit 1.8-1	Superfund Administrative Improvements: Highlights of Continued Initiatives	33
Exhibit 1.8-2	Superfund Accelerated Clean-Up Model	34
Exhibit 2.3-1	Final NPL Sites for Fiscal Year 1987 Through Fiscal Year 1994	44
Exhibit 3.1-1	Typical Removal Actions	50
Exhibit 3.2-1	Cumulative Removal Action Starts	52
Exhibit 3.2-2	Cumulative Removal Action Completions	53
Exhibit 4.2-1	Work Has Occurred at 94 Percent of the National Priorities List Sites	58
Exhibit 4.2-2	Remedial Accomplishments Under the Superfund Program for Fiscal Year 1980 Through Fiscal Year 1994	59

Contents (continued)

Exhibit 4.2-3	Projects in Progress at National Priorities List Sites by Lead for Fiscal Year 1993 and Fiscal Year 1994	60
Exhibit 4.5-1	Cost Savings Associated with the Use of Innovative Technologies at 17 Sites	65
Exhibit 4.5-2	Emerging Technology Program Projects by Treatment Category	66
Exhibit 4.5-3	SITE Emerging Technology Projects Accepted into Program In Fiscal Year 1994.....	67
Exhibit 4.5-4	Projects Completed Under the SITE Emerging Technology Program in Fiscal Year 1994.....	68
Exhibit 4.5-5	New Technologies Accepted into SITE Demonstration Program in Fiscal Year 1994.....	70
Exhibit 4.5-6	SITE Demonstration Projects Completed in Fiscal Year 1994	72
Exhibit 4.5-7	Requests for SITE Documents	74
Exhibit 4.6-1	Sites At Which Five-Year Reviews Are Required under CERCLA Section 121(c), Fiscal Year 1994	83
Exhibit 5.2-1	Cumulative Value of Response Settlements Reached with Potentially Responsible Parties	87
Exhibit 5.2-2	Increase in the Percentage of Remedial Designs and Remedial Actions Started by PRPs.....	88
Exhibit 5.2.-3	Cumulative Value of Cost Recovery Dollars Achieved and Collected	89
Exhibit 5.2-4	Highlights of Successful Enforcement Accomplishments	90
Exhibit 6.2-1	Number of Federal Facilities on the Federal Agency Hazardous Waste Compliance Docket	105
Exhibit 6.2-2	Distribution of Federal Facilities on the Federal Agency Hazardous Waste Compliance Docket	105
Exhibit 6.4-1	Status of EPA Facilities on the Federal Agency Hazardous Waste Compliance Docket	111
Exhibit 7.1-1	Number of Technical Assistance Grants Awarded From Fiscal Year 1988 Through Fiscal Year 1994	116
Exhibit 7.4-1	Minority Contract Utilization During Fiscal Year 1994	122
Exhibit 7.4-2	Services Provided by Minority Contractors	123
Exhibit 8.1-1	EPA Superfund Obligations	126
Exhibit 8.3-1	Estimate of Total Trust Fund Liability to Complete Cleanup at Sites on the National Priorities List	129
Exhibit 8.4-1	CERCLA Resource Needs and Interagency Funding for Other Federal Departments and Agencies	130
